Dear Falak Shah,

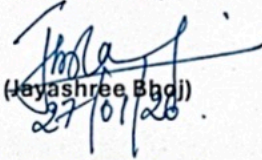

This letter is to acknowledge the work carried out by your initiative, Sustainability Heroes, in organizing tree plantation and maintenance activities across Mumbai. Your efforts since 2021 have resulted in the planting and sustaining of a large number of trees.

Through collaboration with schools and local communities, your initiative has engaged students and adults in addressing environmental concerns such as air pollution and climate awareness. The involvement of schoolchildren in these activities has contributed to building basic awareness around sustainability and environmental responsibility.

Your work aligns with the objectives of environmental conservation and citizen participation promoted by this Department. I understand that you plan to continue and expand these efforts through further collaboration with schools and non-governmental organizations.

I wish you well in your future activities.

Yours sincerely,

(Jayashree Bhoj)
